Dear Mr. McCaskey,

Thank you for your steady support of NFIB's Political Action Committees (PACs) and your recent contribution of \$50.

Your contribution is an investment in the small business community's ability to survive, recover, and grow. With your support, you strengthen our voice on the legislation that directly impacts your livelihood as a small business owner.

2022 is going to be a pivotal year for NFIB PACs. We have the chance to take back a pro-small business majority in Congress and in state legislatures across the country. Your early support is going to allow us to execute a robust political effort across the nation to protect incumbents who are proven allies of small business, elect pro-small business candidates, and challenge anti-small business incumbents.

Thank you again for your recent contribution. Your continued support helps NFIB be a leader in supporting political candidates and members of Congress who advocate for Main Street America.

Sincerely,
