

Construction Foreman

We are requiring at least 2 years of experience for this position.

As the foreman, you will be responsible for supervising all aspects of the clients' properties, starting with high standards of safety, followed by production. You will manage staff, time, materials, and equipment on your properties, all while upholding the client's expectations. The Construction Foreman is held accountable to the Construction Production Manager through daily check-ins and performance reviews.

Construction crews work from blueprints and/or work orders to complete a variety of tasks. You will work on everything from new construction projects to existing structure renovations. Tasks are driven by the seasons and will include, but are not limited to:

- Patios
- Walkways
- Pool installation
- Outdoor kitchens
- Fire pits/fireplaces
- Lawn installations and drainage remediation
- Water features
- Lighting installation and adjustments
- Irrigation installation and system management
- Proper horticultural installation of plants and trees
- Spring clean ups
- Snow removal and ice control
- Maintenance and repair of your equipment

The ideal candidate will possess:

- A valid driver's license
- Proven experience in managing 1-2 people
- Desire for continuing education and certification
